<https://rubyinstaller.org/>

**Ruby 2.3.3 (x64) released**

The screenshot shows the RubyInstaller for Windows website in a Firefox browser. The page has a light blue header with the RubyInstaller logo and navigation links: About, Download, Help, and Contribute. The main content area features the headline "The easy way to install Ruby on Windows" and a subtext describing it as a self-contained Windows-based installer. Below this are two buttons: "Download" and "Add-ons". To the right is an illustration of a wooden crate with a downward arrow and red gemstones. The "Latest News" section on the left lists two releases: "RubyInstaller 2.4.1-1 released" (dated 2017-05-25) and "RubyInstaller 2.2.6 and 2.3.3 released" (dated 2016-12-07). The "Extras" section on the right promotes two online courses: "ONLINE RUBY PROGRAMMING COURSE" and "ONLINE RAILS PROGRAMMING COURSE". The browser's status bar at the bottom shows a message about Firefox's startup time and a "Refrescar Firefox..." button.

RubyInstaller for Windows

About Download Help Contribute

### The easy way to install Ruby on Windows

This is a **self-contained Windows-based installer** that includes the **Ruby language**, an execution environment, important **documentation**, and more.
