Instalación Postgresql WIN10

<https://www.enterprisedb.com/downloads/postgres-postgresql-downloads#windows>

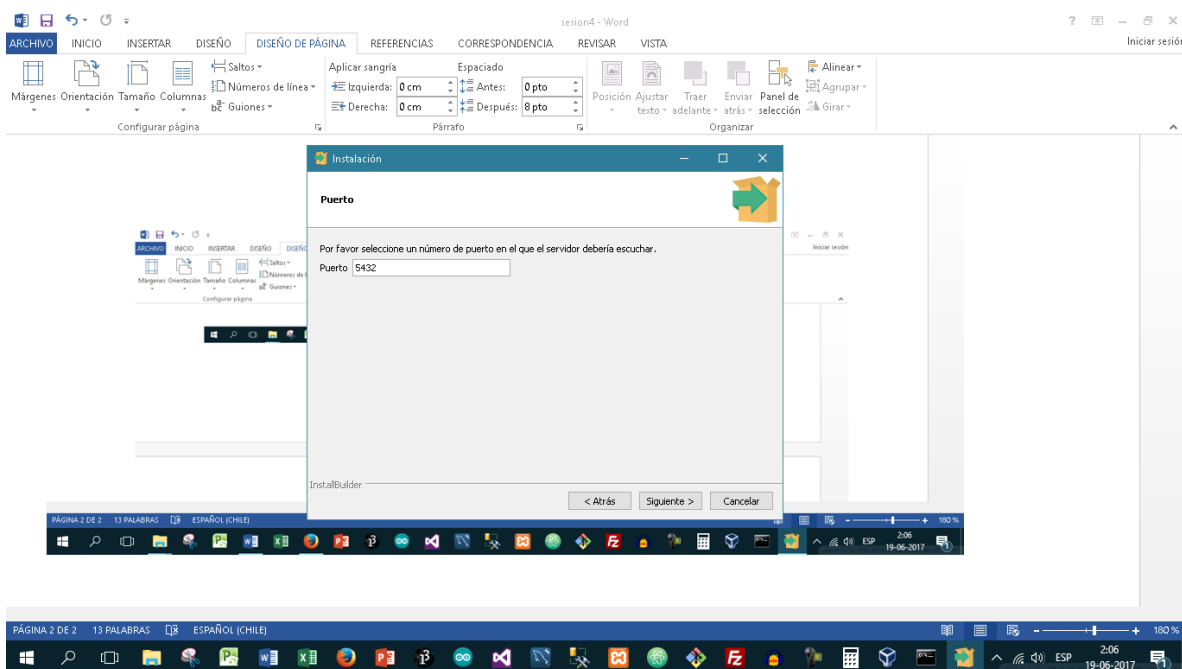

The screenshot shows a web browser window with the address bar displaying "Buscar o ingresar dirección" and a search icon. The page title is "POSTGRES TUTORIAL" and the URL is "https://www.enterprisedb.com/downloads/postgres-postgresql-downloads#windows". The page content includes a navigation menu with links: HOME, STORED PROCEDURES, TRIGGERS, VIEWS, INTERFACES, and FUNCTIONS. The main content area is titled "Section 2. Querying Data" and lists several PostgreSQL queries: PostgreSQL Select statement, PostgreSQL Order By, PostgreSQL Select Distinct, PostgreSQL Where, PostgreSQL LIMIT, PostgreSQL IN, PostgreSQL Between, PostgreSQL Like, PostgreSQL Inner Join, PostgreSQL Left Join, PostgreSQL Full Outer Join, PostgreSQL Cross Join, and PostgreSQL Natural Join. A Windows 10 taskbar is visible at the bottom, showing various application icons and the system clock displaying 1:58 on 19-06-2017. A "Microsoft Visual C++ 2013 Redistributable (x64) - 12.0.40660" setup window is also visible, showing the "Setup Progress" bar.

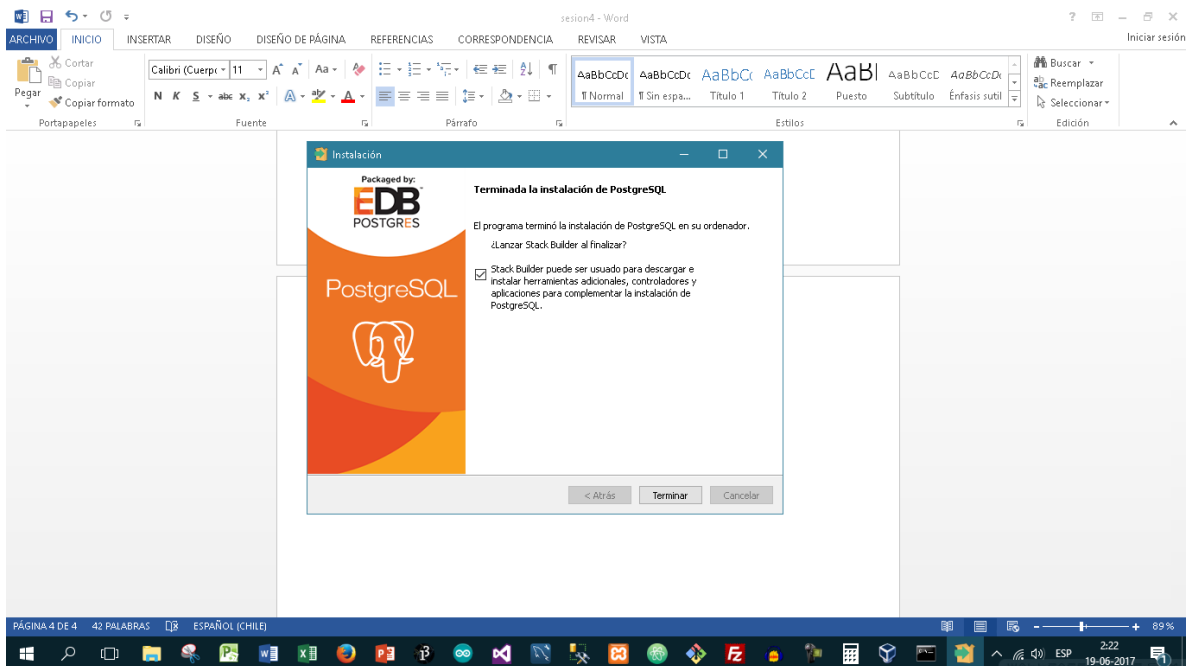

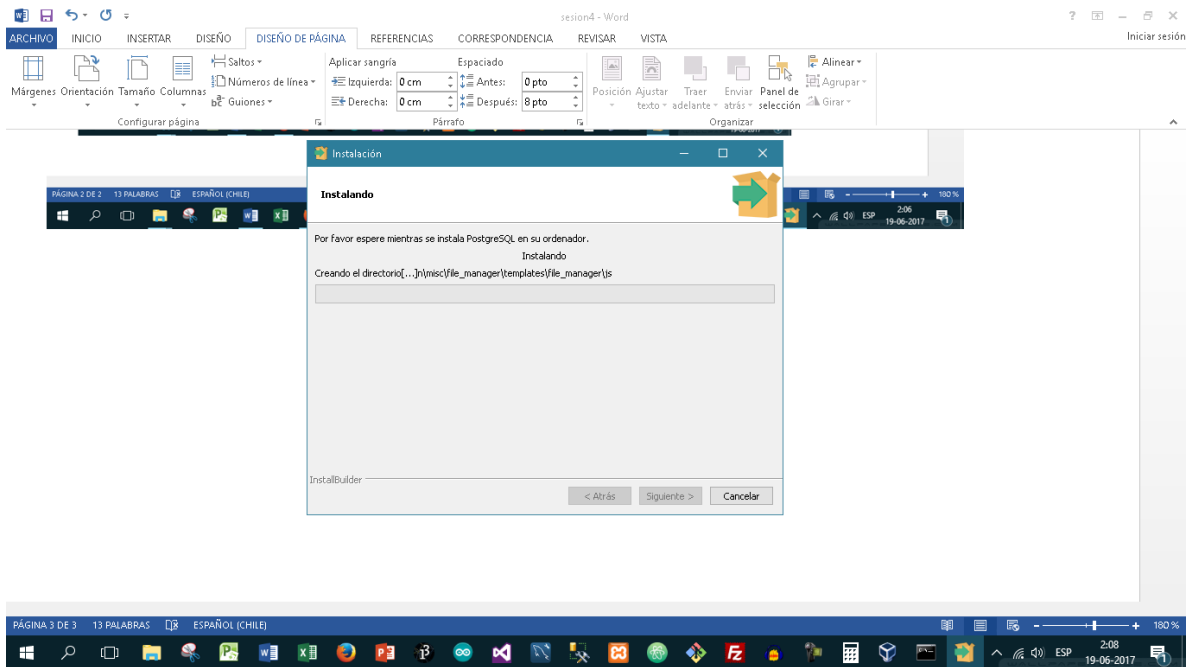

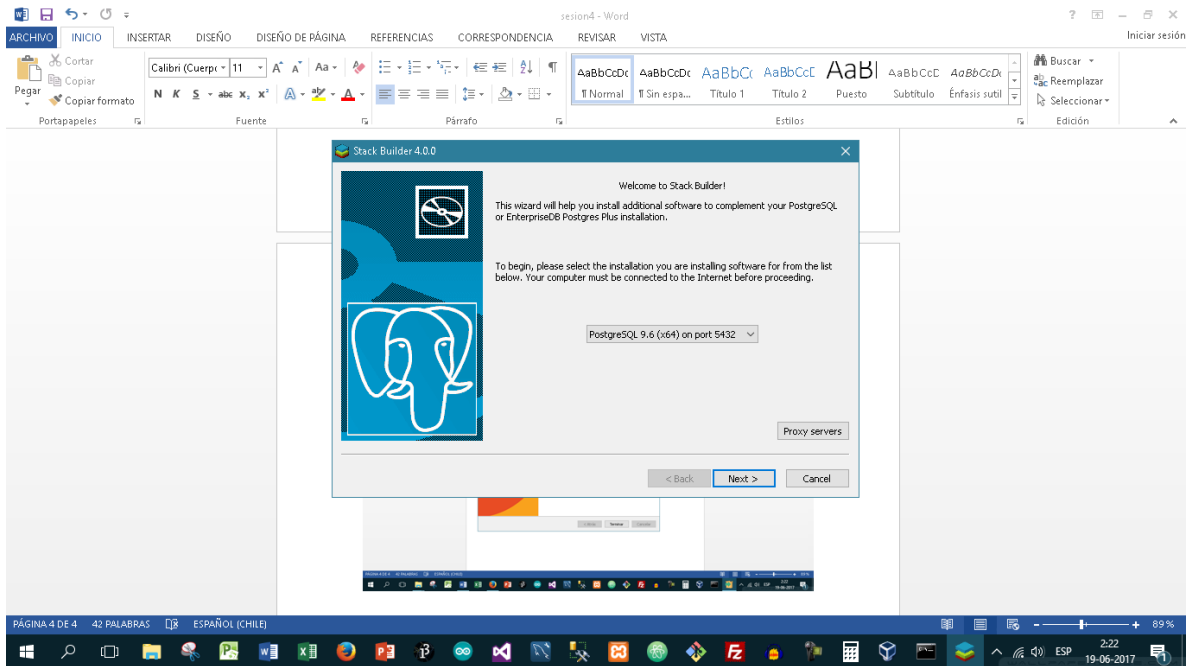

En este paso te pedirá confirmar dónde guardarás la data /data déjala en folder por default

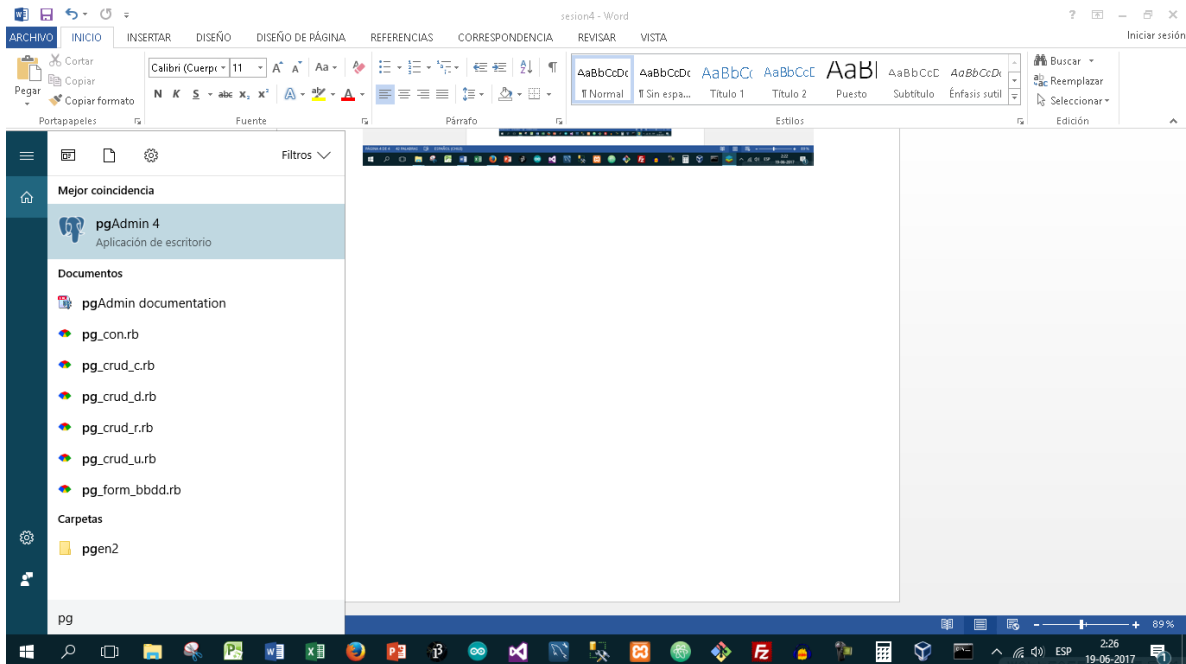

En este paso te pedirá el puerto y zona horaria, déjala por defecto

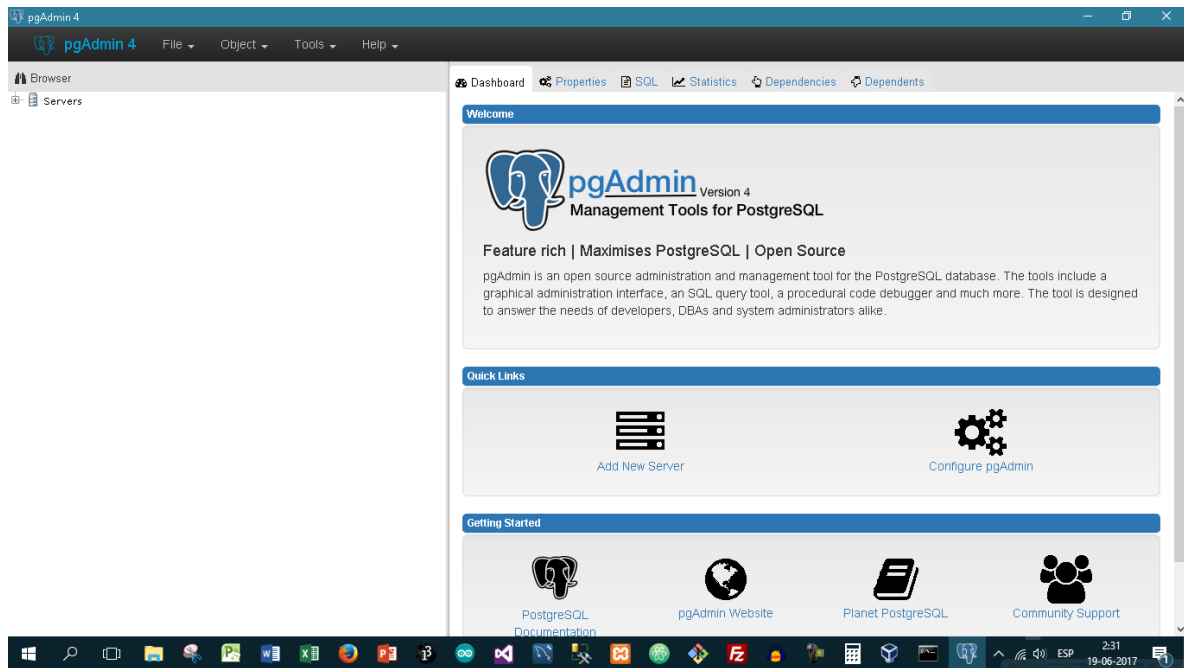

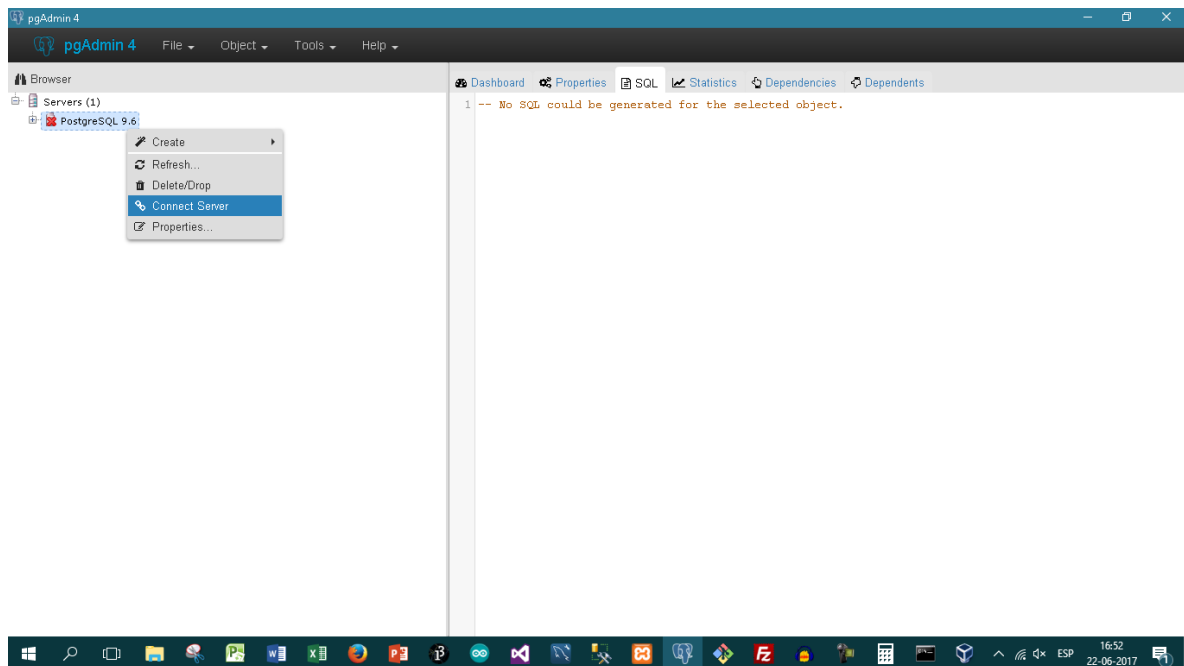

En el buscador de aplicaciones escribe PG

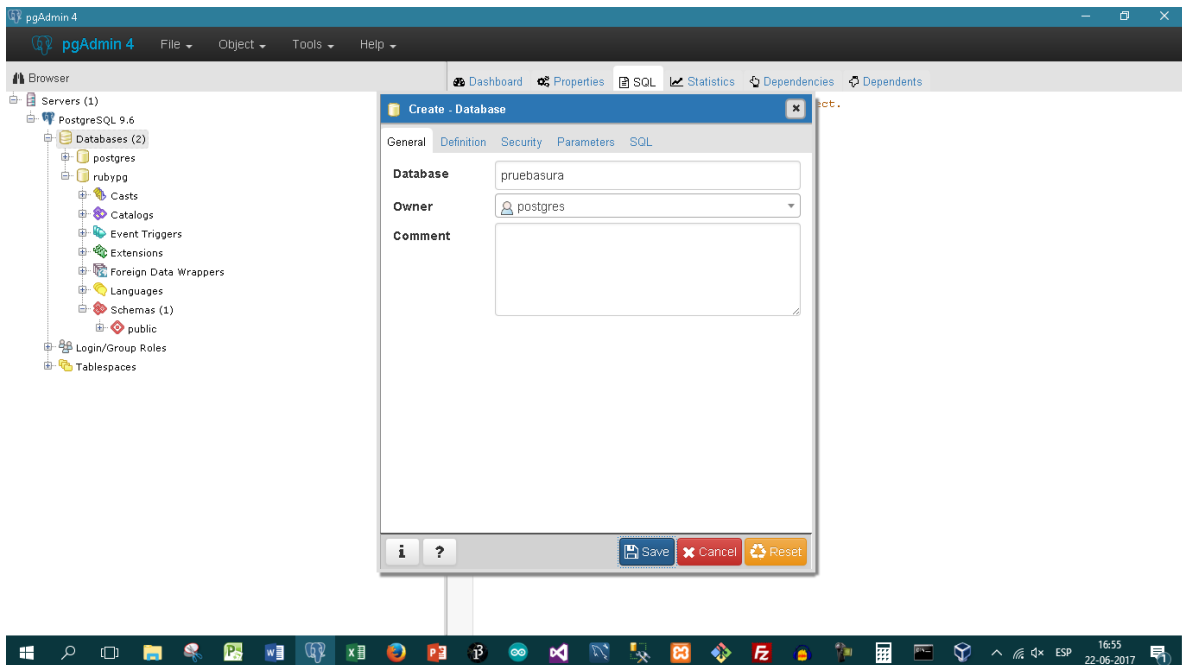

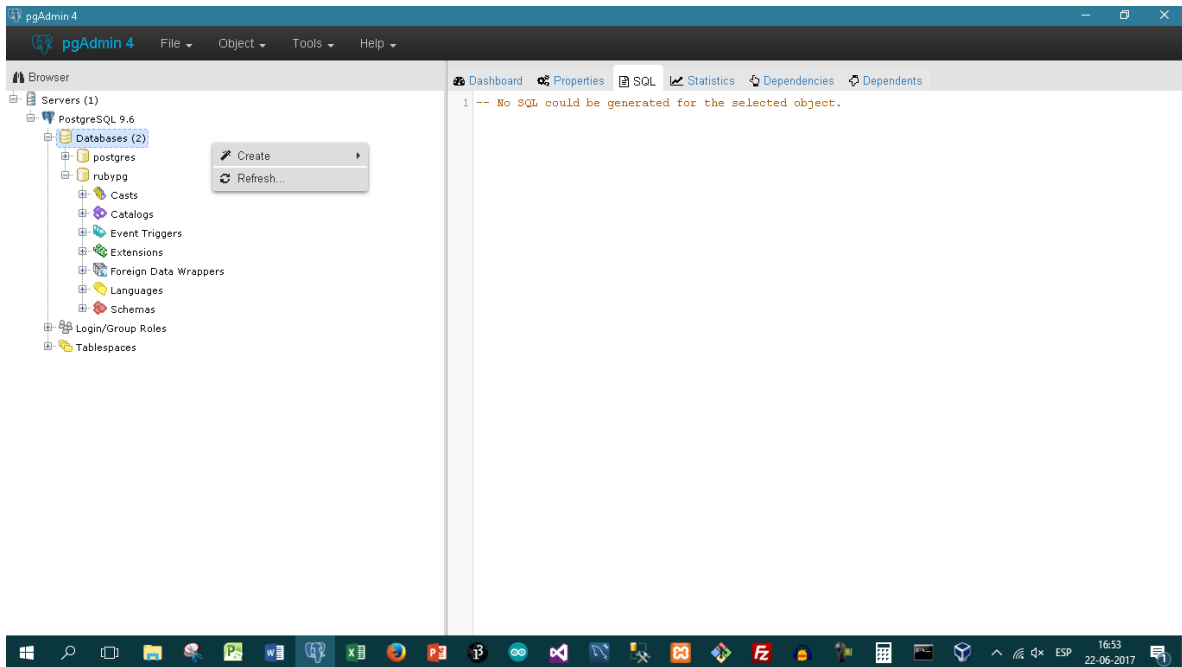

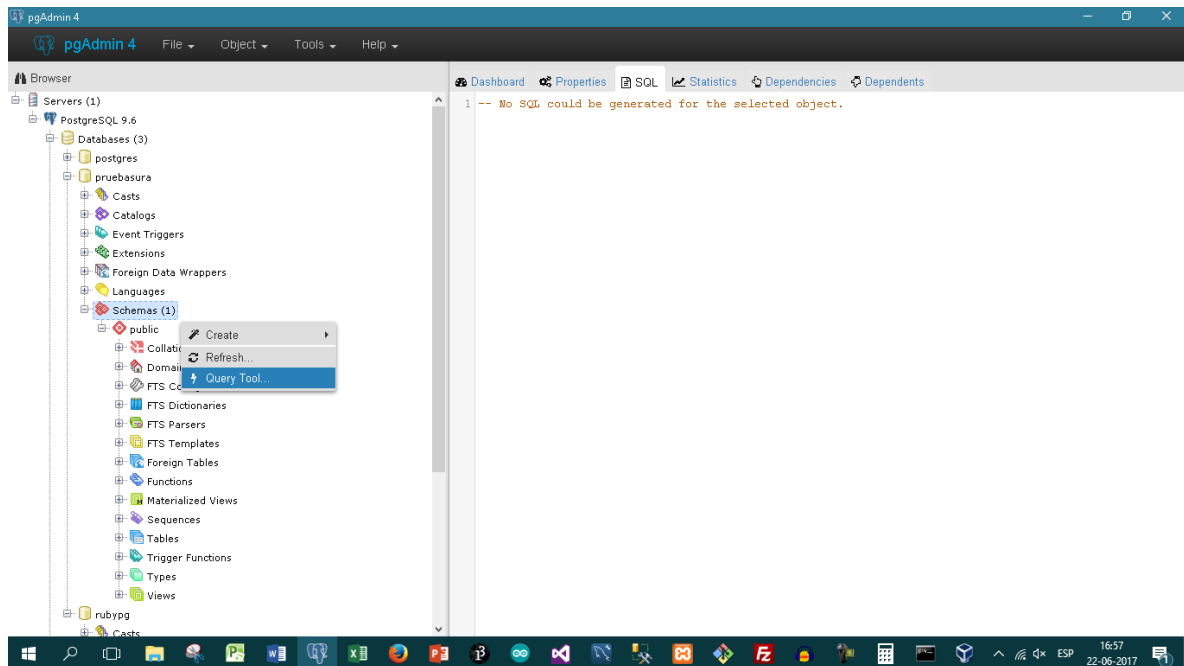

Ubícate sobre Servers y con botón derecho conectar

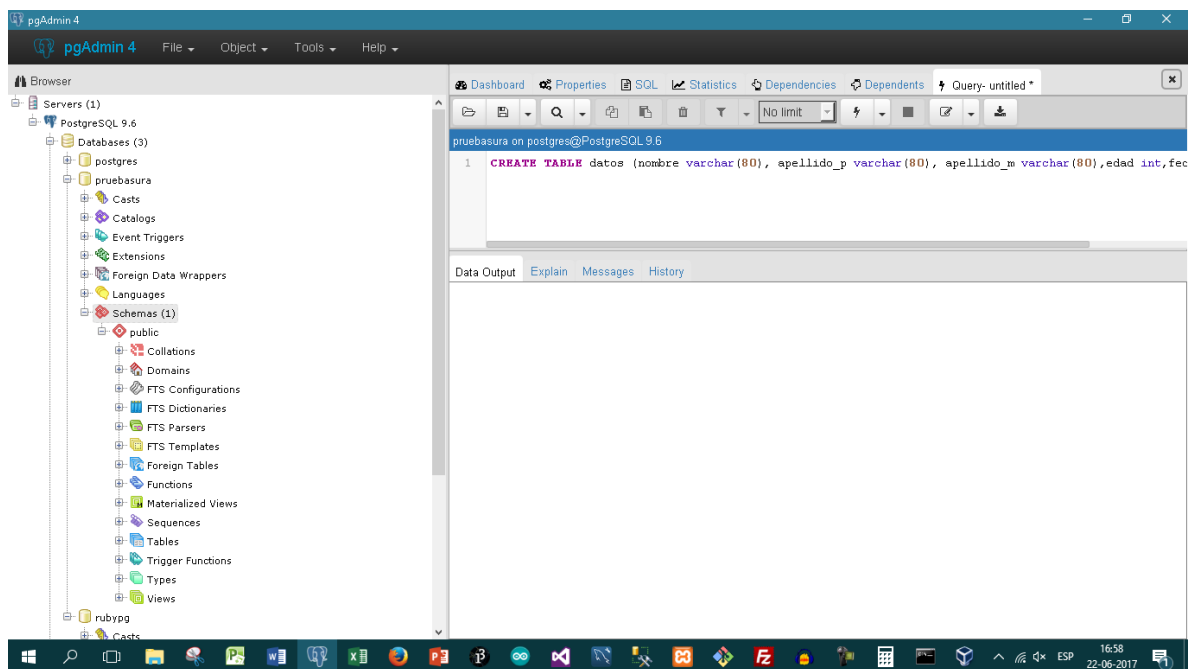

Crea tu base de datos:

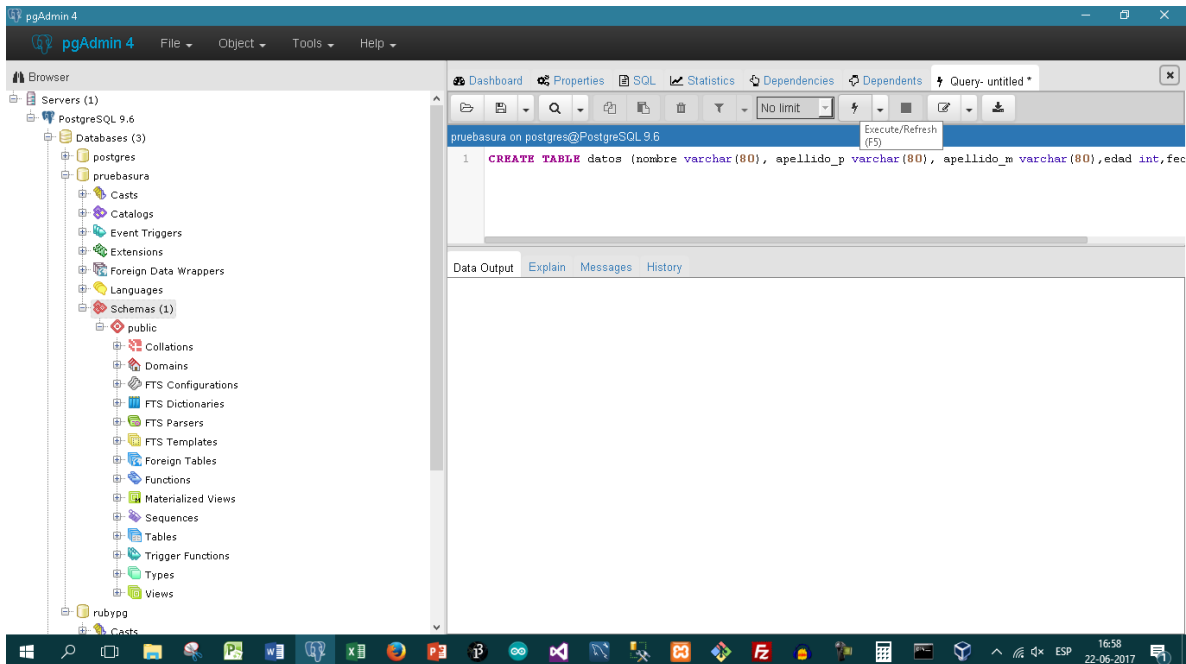

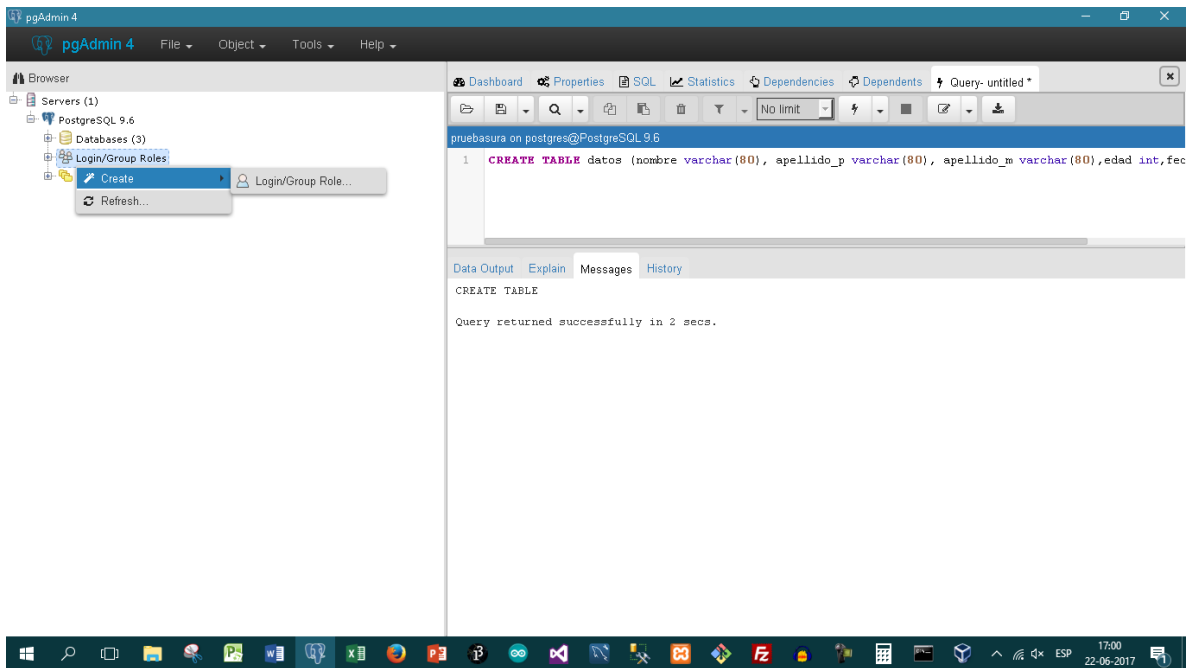

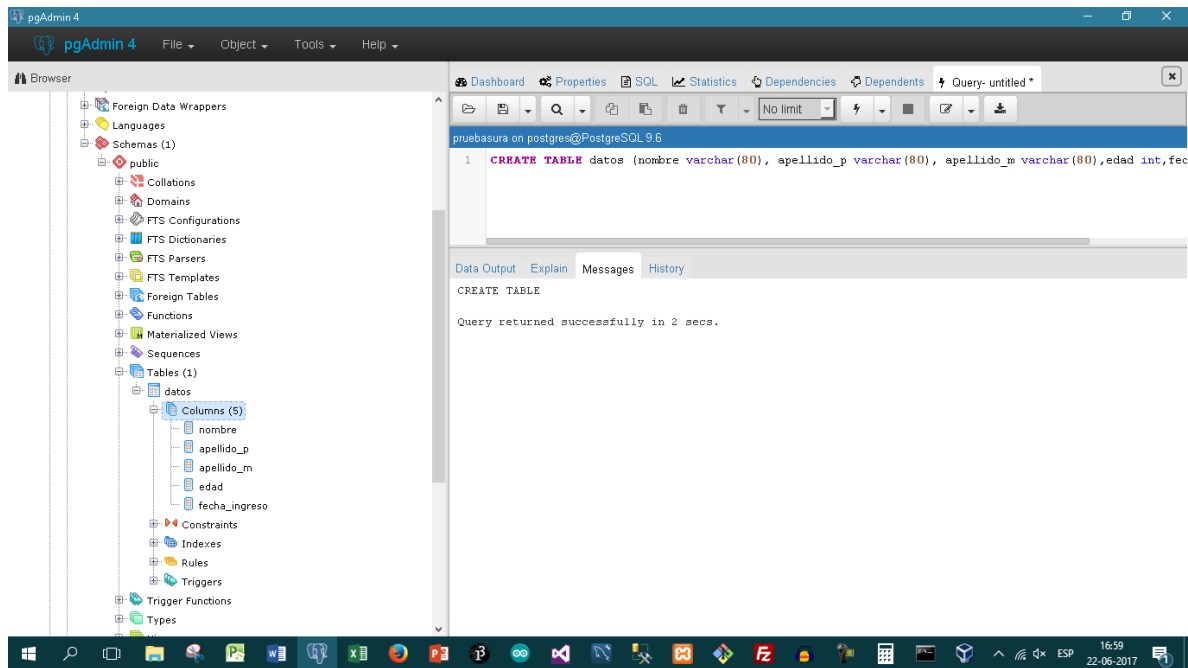

LA BASE DE DATOS POSTGRESQL TIENE LA SIGUIENTE ESTRUCTURA:

CREATE TABLE datos (nombre varchar(80), apellido_p varchar(80), apellido_m varchar(80), edad int, fecha_ingreso date);

Te recomiendo crear un nuevo usuario, con permisos y roles

En Ruby instalar gema pg...

gem install pg
